

MODEL ENERGY, PLLC

MODELENERGY.COM
919-274-9905
300 FAYETTEVILLE ST., #1430
RALEIGH, NC 27602

Installer: Southern Energy Management
Customer: Lorentzen, Jason
Subject: PV System Post Construction Inspection
Date: 9/5/2022

To whom it may concern:

A field inspection of the installation has been performed by myself, Andrew King (a North Carolina registered design Professional), or a person under my direct supervision.

Model Energy, PLLC performed the site visit on September 3, 2022 at 426 Ponderosa Road, Cameron, NC 28326, and has reviewed the installation details of the PV system that was installed by Southern Energy Management. The review was limited to the structural elements involved in the construction.

The structural installation of the PV system was inspected, it shall not create a negative impact on the building's structural design, including any additional loads imposed (dead, snow and wind), and is in compliance with the 2018 North Carolina Residential Building Code. In addition, the PV system was installed in accordance with the structural documents submitted for permitting and was installed using standard and sound construction practices.

Thank you,

Andrew King, PE
