

MODEL ENERGY, PLLC

MODELENERGY.COM
919-274-9905
300 FAYETTEVILLE ST., #1430
RALEIGH, NC 27602

Installer: Ready Solar
Customer: Jennifer Zemo
Subject: PV System Post Construction Inspection
Date: 1/20/2023

To whom it may concern:

A field inspection of the installation has been performed by myself, Andrew King (a North Carolina registered design Professional), or a person under my direct supervision.

Model Energy, PLLC performed the site visit on January 18, 2023 at 345 Rawls Club Road, Fuquay-Varina, NC 27526 and has reviewed the installation details of the PV system that was installed by Ready Solar. The review was limited to the structural elements involved in the construction.

The structural installation of the PV system was inspected, it shall not create a negative impact on the building's structural design, including any additional loads imposed (dead, snow and wind), and is in compliance with the 2018 North Carolina Residential Building Code. In addition, the PV system was installed in accordance with the structural documents submitted for permitting and was installed using standard and sound construction practices.

Thank you,

Andrew King, PE
