### Solar Array Post Installation – Structural & Electrical Review

Per your request, Jovaughn Gilbert, a representative of Principal Engineering performed a post install site visit at the above address on 05/30/2023. The purpose of the post installation visit was to confirm the installment of solar panels to the roof were completed as instructed by the Structural and Electrical Engineers.

Based on examination of the installment of solar panels & electrical components to the existing roof, it is our conclusion that the photovoltaic array & appropriate electrical equipment was constructed in accordance with the structural and electrical requirements and North Carolina applicable codes in our original letter dated: 09/06/2022.

The equipment will not create a negative impact on the building's structural design, including any additional loads imposed (dead, snow, wind) and the installation is in compliance with the North Carolina Residential Code

Inspection validates construction according to design. The framing size and spacing has been verified to match the provided information from the original review. Measures have been taken to waterproof all roof penetrations and no existing or new damage was observed.

If you have any further questions regarding this matter, please call our office at your convenience.

## APPENDIX G

### DESIGN PROFESSIONAL INSPECTION FORM

Record of the Inspection of a Component or Element by a NC Licensed Architect or Engineer

**Project Information:**

Residential Single-Family Project: <b>Y</b> N	Commercial Project: Y N
Code Enforcement Project No:	Permit No: <u>ERES2211-0024</u>
Project Name: <u>Lane Residence</u>	Owner: <u>Nathan Lane</u>
Project Address: <u>385 Papoose Trail, Lillington, NC</u>	Suite No:
Date Inspected: <u>05/30/2023</u>	Contractor Name: <u>Marc Jones Construction, LLC DBA Sunpro Solar</u>
Component Inspected: <u>Roof Installation</u>	

**Responsible Licensed NC Architect or NC Engineer**

Name:	<u>Henry I. DiFranco, Jr.</u>	
Firm Name:	<u>Principal Engineering</u>	
Phone Numbers:	Office: <u>985-624-5001</u>	Mobile:
email Address:	<u>Principal-Sunpro@pi-aec.com</u>	
Mailing Address:	<u>1011 N. Causeway Blvd. Suite 19. Mandeville, LA 70471</u>	

**APPLICABLE CODE:**

**2018 NCRC** = 2018 NC Residential Code = **2017 NEC** = 2017 National Electrical Code

Describe Element/Component/Type of Inspection: \*

Structural & Electrical inspection of PV racking system including mounts to roof, rails, and clamps. Also to include the inspection of wiring, inverters, combiner box.

\*(subgrade form/letter may also be required)

**Attestation/Signature:**

By signing below, I certify that the component and/or element of the building as identified on this form has been inspected by me or someone under my direct supervision per G.S. 160D-1106 and is in compliance with the Code or other proposal of the architect or engineer for the project. This inspection is in compliance with all of the requirements of the above referenced code. Attach any additional documents if needed.

This item has been digitally signed and sealed by Henry I. DiFranco, Jr., P.E. on **May 30, 2023**. Printed copies of this document are not considered signed and sealed and the signature must be verified on any electronic copies.

This item has been digitally signed and sealed by Nestor J. Houghton, P.E. on **May 30, 2023**. Printed copies of this document are not considered signed and sealed and the signature must be verified on any electronic copies.
