Jeanann,

I hope that you had a great weekend. I never received an email in regards to the electrical permit issued at 346 East Jackson BLVD. I can imagine you got tied up. I wanted to follow-up to ensure nothing arises out of a simple request. It is okay to issue the electrical permit for the small building on that lot. It appears to be some sort of an apartment. The building cannot be expanded at all. It is a nonconforming building. If you have any questions please let me know.

Thanks,
Snow Bowden
