To whom it may concern:

Model Energy, PLLC has reviewed the installation details of the PV system that was installed by Freedom Forever at the above address. The inspection was performed by myself, Andrew King (a North Carolina registered design professional), or a person under my direct supervisory control. The review was limited to the structural elements involved in the construction.

This post installation field inspection of the PV system verifies that the PV equipment's structural installation has been inspected and is installed as designed, engineered and sealed by NC engineer Taqi Khawaja, PE.

Thank you,

Andrew King, PE
