Re: Blasting Permit Application for Southern Acres Phase III Sewer Outfall Installation

To Whom it May Concern,

The Planning & Inspections Department is aware of the intent of the developers of the Southern Acres subdivision to install an outfall sewer line to serve Phase III of the development on the parcel identified by Harnett County PIN: 0664-94-1836.000. The developers have provided evidence that substantial rock removal must be completed through using blasting methods in order to install this sewer line.

The Town of Angier authorizes the licensed blasting contractor chosen by the developer to proceed with only the blasting necessary to remove the rock, which will allow for the installation of the sewer line subject to all applicable North Carolina and Harnett County blasting permits and regulations.

Please let me know if you have any questions.

Sean Johnson
