**Project: Sheetz (Cameron)**  
**Location: Sawyer Road & Hwy. 24, Cameron NC 28326**  
**UST RESPONSE LETTER**

Hi Donna, attached are the responses to the UST review comments.

1. Sets of plans shall be submitted for review. Plans shall indicate the following:
  - a. Site plan indicating the exact placement of tank(s) with setbacks from buildings and lot lines.  
**RESPONSE: See attached Placement of UST Plans**
  - b. Indicate the type of product that will be stored in the tank(s).  
**RESPONSE: Covered on FT2.1 Detail B, as well as on multiple other pages.**
  - c. Description and specs on tank that notes their UL listing and containment type.  
**RESPONSE: Covered on FT3.0 Details A&B – as for UL listing the tanks are built to a UL performance spec that I have attached. However they are not assigned a UL number until they are built and we do not receive that number until we take delivery of the tanks, and are invoiced.**
  - d. Description and spec sheets on all piping and appurtenances attached to the tank(s).  
**RESPONSE: Covered on FG3.0 & FG3.1 that lists out all equipment to be used on the job with descriptions and quantities. I have also attached the cut sheet package of all equipment that is part of our NCDENR 6A submittal.**
  - e. A copy of the appropriate NCDENR forms and information for the engineer of record shall be included with the storage tank submittal.  
**RESPONSE: Also attached are two emails with our NCDENR approvals.**
  
2. Storage Tank Inspections - Before being covered, the following inspections are required to be conducted by a fire code official:
  - a. Witness of tank/secondary containment pressure test  
**RESPONSE: Noted**
  - b. Witness of piping system pressure test.  
**RESPONSE: Noted**
  - c. Visual inspection of tank anchoring methods.  
**RESPONSE: Noted**
  - d. Visual inspection of fill material surrounding tank(s).  
**RESPONSE: Noted**
  - e. The tank(s) and piping system shall not be covered unless it has been approved.  
**RESPONSE: Noted**
  - f. The dispensing equipment and leak detection system will be inspected during the final inspection of the occupancy.  
**RESPONSE: Noted**

Best Regards,

Jennifer L. Bardeschewski
