Protex Pre-Engineered Fire Suppression System

Existing fire system is being replaced with a new Protex L3000 system with a 10 flow point capacity. This application uses 9 flows.
 System uses 3/8" black steel piping, fusible metal links, automatic gas valve, remote manual release by exit door, switches for supply air shutdown.
 Hood - 8'L x 4'W
 Duct - 12" x 12"
 Equipment - 24" x 30" griddle, 36" x 24" 6 burner stove with backshelf

Total System Flow Points = 10 : Flow Points Used = 9
