Re: Popeye's – Grease Interceptor
1517 NC 24-87
Cameron, NC 28326 (Spout Springs)

To Whom It May Concern,

With regard to the precast grease interceptor, the separate baffle wall that is inserted into the interceptor and grouted in the field by the contractor (per manufacturer specifications) is an acceptable substitution for the monolithic baffle per the detail on sheet P1.1.

Sincerely,

Afsar Hasan, P.E.
