FINAL NOTICE RE: Failing system at above address

Dear Mr. Cameron,

An on-site inspection was made on your property February 16, 2005 by an Environmental Health Specialist and observed a failing septic system. As of today's date you have failed to comply with our request. Therefore, you continue to be in violation. If we do not hear from you within the next twenty (20) working days, we have no other alternative than to seek legal counsel.

Again, you are hereby notified that you are violating the Rules and Regulations adopted by the North Carolina Commission for Health Services in accordance with requirements of Article 11 Chapter 130A-335 (a) of General Statutes of North Carolina. Any person owning or controlling a residence, place of business, or place of public assembly containing water using fixtures connected to a water supply source shall discharge all wastewater directly to an approved wastewater system permitted for that specific use. A wastewater system may include components for collection, treatment and disposal of wastewater.

We request that you contact the Health Department within 7 days in order to obtain an improvement permit. **You are required to correct this problem within 30 days from this date.** You will be required to bring a **recorded survey map, deed**, and fill out a repair application in order to obtain an improvement permit. Please be advised that any action you may take without an improvement permit does not absolve you of the responsibility for correcting this public health problem, according to health department standards. The continuation of this violation may constitute a health hazard.

I can be contacted at 893-7547 Monday-Friday, from 8:00-9:00 a.m.

Sincerely,

Graham H. Byrd, R.S.
Environmental Health Supervisor
