Over-Height Certification

Mrs. Emmons,

As you requested, I have inspected the above referenced home with respect to the over-height setup. Based upon my inspection, this is to certify that the setup, utilizing x-bracing, double piers and concrete footing as well as the anticipated surface reinforcing on the piers, meets the requirements of the building code for Manufactured Homes as well as ASCE 7-98 Load Resistance Requirements.

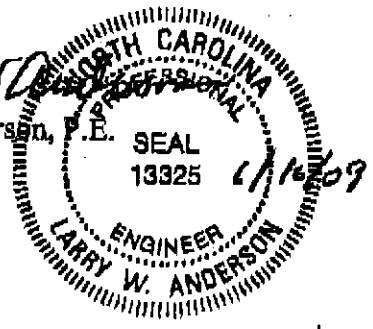

Should you have any questions, please do not hesitate to contact me.

Sincerely,

Larry W. Anderson

Larry W. Anderson, P.E.
