

## COMMENTS:

11/13/2014 Met with Ray Cobb (septic installer) on site. Home owner claimed problems with septic system because of strong odor. No signs of system failure. Spoke with Justin (home owner) and explained to him how the plumbing & vent stacks worked. His mother or mother-in-law stated that the pipe from the house to the septic tank was going up. So it appears the drains are not working because the plumbing does not have fall into the septic tank.
