Subject: septic repair

Mrs. Parks,

It appears by using the county web site that your property is larger than what was flagged. I suggest you get a surveyor to locate the property irons and mark the property lines. This repair may be the only time we can fix the septic system so we need to use all of the property we can. Once the property lines have been marked call me and I come back out and finish the job. If you have questions please call me.
