January 28, 2015

Mr. Gregory Hicks 1494 Rainey Drive Spring Lake, NC 28390

Ref.: Over-Height Set Up Manufactured Home

Mr. Hicks.

Based upon my site visit and inspection of the above referenced home, I am of the opinion that with the addition of cross bracing and pier surface reinforcing, the unit will resist any anticipated loads based upon the current ASCE 7-10 standards for wind loads.

Should you have any questions, please do not hesitate to contact me.

Sincerely.

Larry W. Anderson, P

LWA/jeg
