Re: Structural Inspection
1442 Hwy 55 West
Coats, N.C.
Permit No. 10-50024765

Dear Sirs:

A structural inspection has been performed on the front and rear porch additions to the manufactured home described above. The front and rear porch additions were found to be structurally adequate for the site conditions and the loads specified by the North Carolina Residential Code, 2009 edition. The structural elements of the home are adequate to support the loads imposed by the porch additions.

Sincerely,

William A. Person, P.E.
