RE: Footing inspection (Permit #SFD1811-0025)

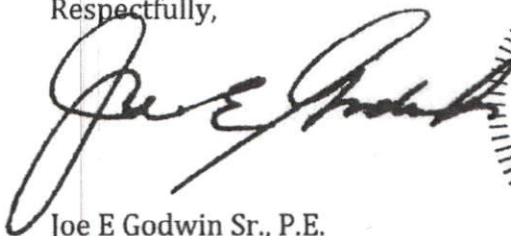

Subject: 2830 Ponderosa Road  
Cameron, NC 28326

To Whom It May Concern:

Enoch Engineers performed an evaluation of the subject site referenced above on May 22, 2019. Our office observed the site where several locations of the footing were undercut and backfilled with #57 stone due to root masses and organics. We inspected the footings soils on and surrounding these areas and determined the soils, depth and width are suitable for construction and meet the minimum requirements for North Carolina Building Code for footings including a minimum allowable bearing capacity of 2,000lb/ft<sup>2</sup>.

If we may be of further assistance, please feel free to call.

Respectfully,

Joe E Godwin Sr., P.E.
