Ref: Site Observations and Analysis  
212 Lynch Ave.  
Lillington, NC  
Project No. 20-117

To Whom it may concern;

The above referenced site was visited on May 4, 2020 for the following items:

1. Engineer to perform third party footing inspection.

Based on analysis, the conclusions regarding the condition(s) are:

1. The referenced project is for new construction of a single family dwelling on a crawl space foundation. At the time of the inspection the contractor had excavated the footings for the interior piers and perimeter walls. The footings were excavated to consistent firm residual soils adequate to support all required design loads per the 2018 NC Residential Building Code and were ready for concrete placement.

Thank you for this opportunity to assist you. If you have any questions or need any further assistance, please do not hesitate to call.

Respectfully,

Mark E. Jones, PE
