To Whom it may concern:

At the address 585 Sunridge Drive, Cameron NC, J & R Homes is constructing a single family residence for Patrick and Aline Autry. The plan was purchased online for the buyer and is intended to be used as an architectural plan, and not an engineered design build. It is our intention to build to local building code, specifically with the lack of inclusion of lateral rebar enforcement in the footings. All other details that may be superseded by building code will be the preferred construction method utilized on this build.
