RE: Engineering - Foundation Analysis

7333 Overhills Road ;Spring Lake, NC

Project No.:21DDM-0425C

To whom it may concern:

The undersigned arrived on-site 4-25-21 to observe, probe and perform Dynamic Cone Penetrometer (DCP) testing in general accordance with the American Standard Testing Methods (ASTM) special publication 399 and perform Standard Density Testing on the exposed foundation and slab sub grade fill soils at the above referenced site. Based on the observations the tannish grey silty sandy fill soils were adequate for support of the planned loading conditions and 95% compact.

Sincerely,

David Miller, PE

DEM/21DDM-0425C
