Field Observations Report

Project Name:	Lot 710 Manor @ Lexington MLP (CMT) Cameron, NC	Project Number:	RD200793
Client Name:	H & H Homes	Placement#:	FO-2
Contractor:		Technician:	Rachael Heath
Monitoring:			

1 : Project Management Review

Based upon our observations and pictures provided by Mr. Jimmy Barnard with H & H Homes, the recommended repairs have been accomplished and bearing capacity of 2,000 psf is available. The building pad is now acceptable for the placement of concrete. See attached photos.

Additionally, inclement weather (rain or snow), as well as construction traffic across the pad, can compromise the stability and support characteristics of the surface soils. If the surface soils become compromised, it will be necessary to return to the site for re-testing. This decision should be executed by your onsite Quality Control and Superintendents.
