S IS A TRUSS PLACEMENT DIAGRAM ONLY. S IS A TRUSS PLACEMENT DIAGRAM ONLY.

se trusses are designed as individual building components to be incorporated into building design at the specification of the building designer. See individual design its for each truss design identified on the placement drawing. The building designer sponsible for temporary and permanent bracing of the roof and floor system and for overall structure. The design of the truss support structure including headers, beams, s, and columns is the responsibility of the building designer. For general guidance rding bracing, consult BCSI-B1 and BCSI-B3 provided with the truss delivery package thing me set beforester come.
