Shear reactions less than or equal to 2000# are deemed to comply with the prescriptive code requirements. The contractor shall refer to the attached Tables (derived from the prescriptive code requirements) to determine the minimum foundation size and number of wood studs required to support reactions greater than 2000# but not greater than 16000#. A registered design professional shall be retained to design the support system for any reactions that exceed those specified in the attached Tables. A registered design professional shall be retained to design the support system for all reactions that exceed 15000#.
