Anderson Creek Club Architectural Committee

Certificate of **Approval**

Lot: 119

Plan: Calabash Sqft: 3001 sq ft Stone: Mountain

Siding: Uncertain Grey SW 6234 F&T: Extra White SW 7006 Door: Waterloo SW 9141

Anderson Creek Club Architectural Committee hereby <u>approves</u> commencement of construction in accordance with the plans and specifications for construction/improvements as set forth in the AC Application filed January 25, 2021, subject to the limiting conditions and terms set forth herein.

H&H Homes, the Contractor, is hereby **authorized** to construct the improvements upon the following conditions:

- 1. Full compliance with all applicable Covenants and Restrictions and according to the plans and specifications submitted and approved as amended.
- 2. Construction shall begin within 5 months and be completed within 18 months of commencement.
- 3. Other terms and conditions:

Final Certificates of Compliance are always contingent upon proper landscaping. Remember to adequately screen HVAC units and electrical equipment and any open areas under rear decks, taking into consideration distance requirements posted by utility companies. As per builder's guidelines page 14 #'s 8, 9, and 12.

All exposed foundations and stem walls exceeding 8" from ground to siding must be finished with brick or stone around the entire structure.

If location of home is altered, re—submit proper plot plan for approval. Current plot is approved

Please add trees (2) to the front yard 2 caliper minimum as there are no existing, trees. Landscaping screening underneath of decks will be required.

Please make sure that there is additional landscaping in the front of the home due to the home being located on the main road of ACC

This 22th day of February 2021,

Anderson Creek Club Architectural Committee

By: Electronic Confirmation

This approval is based on the lands, surveys, and specifications as submitted. The AC did not verify or question the sufficiency or accuracy of the documents submitted to it.
