Fayetteville NC, 28305

Dear Mr. Wright:

A soil/site evaluation was conducted on 40 Truman Lane Cameron, NC for a proposed onsite wastewater disposal system to serve a four-bedroom home. The evaluation was conducted in accordance with the NC sewage treatment and disposal laws and rules 15A NCAC 18A .19.

Adequate area was found for the initial wastewater disposal system and for the repair area. The system may be a gravel less system, pump system, alternative or modified trench system. This letter does not guarantee a permit from the local Health Department.

If you have any questions, please give me a call at 910-806-0356.

Sincerely,

Jeff Eudy REHS
