

ATTN: Inspector

MPI Foam installed DC-315 Thermal Barrier over the exposed spray foam insulation in the storage areas at 4605 Christian Light Rd Fuquay.

DC-315 was installed in accordance to the manufactures installer's specifications and to the NCBC code. The thickness of the applied paint is 20 mil wet and 13 mil dry.

Please contact me any questions or concerns. 919.360.0888
