Good Evening Jeanann,

I had our GC take a look at the plans and truss system. It appears that everything is correct. The sunroom projects 10' beyond the main body of the house (that's the 1st 10' under truss) then the second 10' under truss is the covered patio. Then beyond that is the open patio. I have reattached the foundation, truss layout, and main floor.

Please let me know if there is something further we can provide, or, if Mr. Sutton needs to speak with our GC, he is available for a call if need be, that's no problem at all.

Thank You,
Stacey
