Spring Lake, NC 28390
TE&D Project No.: 2401-020836_A

As requested by the builder, a representative of Tyndall Engineering & Design, PA (TE&D) was on-site to observe the following items:

- 1) Inspection of footing projection repair installed per our previous letter.

The following conclusions and recommendations were noted:

- 1) Based on our observations and analysis, the footing projection repairs were installed per our previous letter at the (2) specified piers. No further modification is required.

We appreciate being able to assist you during this phase of the project. If you need further assistance or require additional information, please do not hesitate to contact us.

Sincerely,
Tyndall Engineering & Design

Tripp Amos
