Mr. Shawn Spears
S&J Construction of Raleigh

Re: 116 Ithica Lane
Bunnlevel, NC

Dear Mr. Spears:

At your request, I have reviewed the footing excavations for the new construction located at the above noted address. The excavations were reviewed and found to be adequate for 2,000 psf minimum soil bearing. Additionally, the concrete for the foundations was placed in accordance with all relevant specifications and code provisions.

It is my professional opinion that this foundation, as constructed, will safely support all structural loads as required by the 2018 North Carolina State Building Code - Residential

Please let me know if you have any questions or require additional information.

Regards,

Chris Berg, PE
