Raleigh, NC 27603

Dear Mr. Glover:

A follow-up site visit was made to the Minton residence under construction at 159 Alice Holleman Lane in Fuquay-Varina, North Carolina to address the pilaster noted by the inspector to lack projection.

A trench was excavated to the bottom of the existing footing per my direction. Concrete is to be placed in the trench to provide full support for the pilaster. The added section of concrete will provide the required support for all applied loads.

Please call me if you have any questions.

Sincerely,

J.S. Thompson Engineering, Inc.
