Summary of Services Performed (field test data, locations, elevations & depths are estimates) & Individuals Contacted.

The undersigned reviewed the repairs made to the foundation at 597 Lakerun Drive, Bunn Level, North Carolina which were recommended by ECS, in Field Report #22, dated 9-27-2023.

The soils appeared to be undercut as recommended. The undercut is to be backfilled with concrete.

Based on our previous testing and the completion of recommended repairs, the footings should be capable of supporting a design bearing capacity of 2,000 psf.

NORTH CAROLINA PROFESSIONAL SEAL 047651 ENGINEER AUBREY PAUL LANKFORD, JR.
