Subject: Summary of 3rd Party Basement Slab Inspection
131 Peacock Road
Buffalo Lakes Subdivision
Sanford, North Carolina
Permit Number: 2311-0015
Project Number: 8984.F0001 (40008-01)

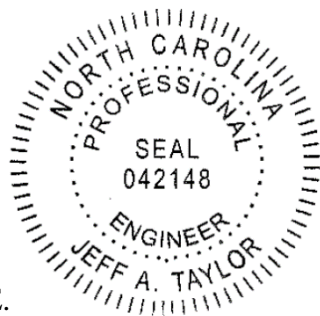

Dear Mr. Lugiano:

On March 19, 2024, a representative of SUMMIT Engineering, Laboratory and Testing, Inc. (SUMMIT) visited the subject site to perform a third-party basement slab inspection for the above-mentioned lot. The following is a summary of our onsite observations and evaluation.

Based on our measurements, the slab thickness, thickened slab sections, lugs and rebar were prepared per the structural plans provided on site. Additionally, we observed that the vapor barrier was installed.

We appreciate the opportunity to assist you during this phase of the project. If you need further assistance or additional information please do not hesitate to contact us.

Sincerely,
SUMMIT Engineering, Laboratory and Testing, Inc.

Jeff A. Taylor, P.E.
Geotechnical Engineer
