Field Observation: Subgrade Testing

Re-Test: No **Creep:** No

Lot #: 39 Kipling Creek Subdivision

Address: 127 High Hampton Way

Project #: 25PG0304J BAM

County: Harnett County

Permit #: SFD25010017

At your request, B.A. McCurry Engineering, PLLC (BAM) visited the site on 03-04-2025 to test the subgrade for the fill at the above referenced home site. The fill was tested with a Dynamic Cone Penetrometer (DCP) test in accordance with the ASTM special publication 399 and probed with a steel probe rod for comparison to the test locations.

The fill consisted of: red sandy clay

And was tested to a depth of 1 ft.

Based on testing and observation, the subgrade prepared for the footing excavations at property above is of adequate bearing capacity to support the proposed loads (2,000 psf) of the home. If you have any questions about this report, please email or call.
