Good morning

The house dimensions should be 48x62 that was my mistake, so I apologize. Please also see the attached lien agent, let me know once you receive this and if you need anything else.

Thanks

Good morning,

The customer came in & started the septic application back in February, noting the size of the house as 48' x 62' but your Land Use indicates that it is 62' x 43'.

The Site Plan shows the 48' x 62'—which is correct?

Please confirm the square footage & dimensions.

We also still need the Building Application & Lien Agent before we can issue the permit.

Sincerely,
Central Permitting Division
