RE: Existing Tank Application #SFD2502-0057

To whom it may concern

An attempt was made to evaluate the above property for issuing an existing tank permit. The evaluation could not be completed for one or more of the following reasons.

1. Uncover outlet lid on septic tank fully and break seal with a handle for access. (\$25.00 fee incurred).

2. Have system pumped out

3. Replace Sanitary T

4. Other – Septic tank lid was too heavy to lift, will need a handle and will need open to see if filter is still intact inside septic tank. Property corner irons need to be uncovered and demonstrated. Property lines need to be marked/flagged every 50' between irons. Will need access to check soil on property (requires cleaning of abundance of bamboo preventing access (this is required to determine if there is room for a septic repair area). Have septic contractor locate and demonstrate septic drain lines.

Your application will be put on hold until the selected items above have been addressed. When completed **call 893-7525 to confirm** that the items mentioned have been corrected we will then reschedule your property for evaluation.

Sincerely,

Reynold Levocz, R.E.H.S.
