1 : Project Management Review

Passed

On this date, Mr. Chris Adams with Dream Finders Homes provided pictures of repairs for Lot 56 Magnolia. Based upon observations, the recommended repairs have been accomplished, and the footings are now acceptable for the placement of concrete.

Additionally, inclement weather (rain or snow), as well as construction traffic across the pad, can compromise the stability and support characteristics of the surface soils. If the surface soils become compromised, it will be necessary to return to the site for re-testing. This decision should be executed by your onsite Quality Control and Superintendents.
