The issue is with my property. Due to the poor lot grade, our leach field has been eroding on a continual basis. Additionally, during long rain events such as the one we have had over the last week, our leach field becomes oversaturated and the septic effluence/smell become very strong in our yard with water/effluence in very close proximity to the home/patio. Address is 330 Bison Lane Lillington, NC 27546 and is Lot 45.

v/r,

BRANDON S. DUNCAN

Good morning Brandon, your inquiry was forwarded to Environmental Health. Can you be more specific with the area you are referring to? Do you have the property address and or the property owner's name(s) so we can determine the location within Oakmont? You can call 910-893-7547 to list the complaint or you may email the information to me.

Thank you,

Susan Stewart

Inquiry For:

Harnett County (Health Department)

Full Name:

Brandon Duncan

Telephone:

2064916237

Email Address:

Brandon.s.duncan.mil@mail.mil < Caution-mailto:Brandon.s.duncan.mil@mail.mil >

Comments:

Concerned with potential issue with septic system on new build in the Oakmont neighborhood. Continued washout, strong smell of sewage, and effluence are coming from the leach field. Would like someone to test if there is potential biohazard.

Submitter:

47.132.87.185
