Comments:	<p>To whom this may concern,</p> <p>Im am contacting you because we are renting a property in the Carolina lakes 395 Captain hbr. Sanford 27332. We recently had some waste coming up near our tank outside. The property management had a company come look and give an estimate of \$2,000.00!! For a complete system renovation!! This is the 2nd time there was an issue out there . The 1st week we lived he the alam out there went off and red light on box went on. This time no alarm no light.. property management company is saying we need to pay for it because the guy who came out specifically said they found baby wipes. He said they can tell the difference from "flushable" with amongst other things and left everything wide open so we currently have a large puddle of waste outside our home! It stinks! Now the problem is my children are 9 and 10 the last time I had to purchase baby wipes we lived in CT! The last tennets have a baby and were slobs.. the house was a filthy disaster when they moved out from what I understand..</p> <p>We are at a stand still with waste sitting on the side of the house. We dont know what to do. The house isn't backed up plumbing works fine. We had no idea untill the neighbor noticed the smell ... its right inbetween our 2 houses.</p>
