

Mr. Andrew Currin

Pin # 1527-36-5596.000

In regards to the so called illegal pipe running from underneath my home to the ditch. I was told by my plumber it was called a French Drain because underneath my home I have too much moisture do to being in a low lying area. It floods everytime it rains. It has been causing moisture issues inside my home. The plumber informed me about the moisture problem when he was fixing my plumbing issues.

I also wanted to inform you that my property I purchased from the tax office is 2016 (act) is listed as Farm land not Residential. It use to be a Hog/Pig pen before the owner Louise Jackson put the trailer there for her son and grand kids. The last time a land survey was done was back then.

If you need anything else from me please let me know.

Sincerely

Cora Jackson
