**RE: Illegal septic system location: 2nd Street Erwin
PIN #1507-23-2335.000**

To whom it may concern:

An on-site inspection was made on your property, November 24, 2025 by an Environmental Health Specialist and observed an illegal septic system (no permitted septic system). Refer to the following:

You are hereby notified that you are violating the Rules and Regulations adopted by the North Carolina Commission for Health Services in accordance with requirements of Article 11 Chapter 130A-335 (a) of General Statutes of North Carolina. Any person owning or controlling a residence, place of business, or place of public assembly containing water using fixtures connected to a water supply source shall discharge all wastewater directly to an approved wastewater system permitted for that specific use. A wastewater system may include components for collection, treatment and disposal of wastewater.

We request that you contact Central Permitting (910) 893-7525 at 108 E. Front St., Lillington, NC. to complete a Land Use Application for a soil evaluation. You will need a **recorded survey map, deed**, and fill out the application in order to obtain an improvement permit. Please be advised the action you have taken without an improvement permit does not absolve you of the responsibility for correcting this public health problem, according to health department standards. The continuation of this violation may constitute a health hazard, and **if you do not comply within the allotted time frame we will be forced to obtain legal action.**

I can be contacted at 893-7547 Monday-Friday, from 8:00-9:00 a.m.

Sincerely,

Oliver Tolksdorf
Environmental Health Supervisor
Harnett County Department of Public Health
Environmental Health Section
