Hey Kimberly,

I am unsure if you are the one I need to contact. We are in the process of trying to get our shop moved but are conflicted on what to do right now. We are actually in the middle of a lawsuit with our realtor for this house. The end result may be that our realtor buys the house back from us and in that case we would take the shop down and take it with us to wherever we would move. I don't want to go through the process of relocating the shop and spend more money if this ends up happening. What should we do?
