Randy thank you for taking the time to speak with me this morning. I really appreciate you working with me on the scheduled plant install at this location. With the approval for this work given by Dollar General yesterday and after talking with my installer, we would like to move the planned install date to April 20, 2023. This is due to the nursery not being able to deliver the plant material in time for a safe install this year. The plan is to have the install completed at the end of March, first of April 2023, but no later than April 20, 2023. Thank you again for working with us on this and please let me know if I can help in any way.
